ROTHSCHILD LINK TO JFK

• World's richest banking dynasty had intimate tie to assassination conspirators

By Michael Collins Piper

*D*ozens of new books and reports from diverse sources purporting to bring out "the truth at last" about the John F. Kennedy assassination on its 50th anniversary are suspiciously ignoring the very real Rothschild connection to the JFK conspiracy.

Right now the big push is to pin blame for the assassination on former Vice President Lyndon Johnson. The "LBJ Killed JFK" theme is rampant, even in the self-styled "alternative" media.

However, AMERICAN FREE PRESS is pleased to be the first publication ever to report on the findings of Maurice Phillips — an otherwise unheralded researcher — who uncovered the never-before revealed Rothschild banking dynasty connection to a key player linked to the JFK conspiracy.

Here's the story, one which should force JFK researchers — at least the honest ones — to take a whole new look at the death of the president.

Today, although the JFK assassination is the focus of a media frenzy, many writers avoid delving into (or even mentioning) New Orleans District Attorney Jim Garrison's unsuccessful 1969 prosecution of trade executive Clay Shaw for involvement in the JFK conspiracy, knowing Garrison had turned up leads pointing in some uncomfortable and controversial directions.

In fact, when Garrison launched his investigation of Shaw he had unwittingly unearthed the "Rothschild connection" to the JFK conspiracy, although Garrison himself apparently didn't realize it at first. This explains why there was such a concerted effort — coming from the highest levels — to derail and destroy the hard-driving prosecutor.

While many first heard of Garrison's prosecution of Shaw through Oliver Stone's film "JFK" — which presented the JFK conspiracy as the work of LBJ and the military brass, aided by rogue CIA operatives — there was much more that Stone left out.

This week — on pages 14-15 — AFP provides an annotated overview of the astounding revelations by Canadian writer Phillips whose work has heretofore been suppressed. Although Phillips's book, *De Dallas a Montreal*, is available only in French, Phillips has written in English of his research on his well-documented website.*

Once you learn of what Phillips has uncovered, you'll understand why so many truth seekers are so determined to suppress his findings.
